

# CVD-COVID-UK/COVID-IMPACT Research Outputs

The papers and preprints listed below have been produced on behalf of the <a href="CVD-COVID-UK/COVID-IMPACT Consortium">CVD-COVID-UK/COVID-IMPACT Consortium</a>, supported by the BHF Data Science Centre.

In line with the consortium's principles - based on a collaborative, transparent and inclusive ethos - all related analysis plans, protocols, code, phenotype code lists and reports are made publicly available via the centre's <u>collection on the HDR UK Gateway</u>, repositories in the centre's <u>GitHub organisation</u> and through open-access publications (via the links below).

## Published papers/reports and preprints

#### November 2025

Title: Vascular and inflammatory diseases after COVID-19 infection and vaccination in

children and young people in England: a retrospective, population-based cohort study

using linked electronic health records. The Lancet Child & Adolescent Health

Project: CCU002\_07: COVID-19 infection and vaccination and the risks of inflammatory and

vascular events in individuals aged under 18 years old

**DOI:** https://doi.org/10.1016/S2352-4642(25)00247-0

GitHub: https://github.com/BHFDSC/CCU002 07

#### October 2025

Title: Burden of cardiovascular diseases in England (2020–24): a national cohort using

electronic health records data. The Lancet Public Health

Project: CCU072 01: Influence of COVID-19 on British burden of cardiovascular disease

**DOI:** https://doi.org/10.1016/S2468-2667(25)00163-X

GitHub: https://github.com/BHFDSC/CCU072\_01

Title: Impact of the COVID-19 pandemic on incidence of myocardial infarction, heart failure

and stroke, by mental disorder diagnosis, in England, 2019–2023: a cohort study.

Open Heart

Project: CCU046 03: Severe mental illness and incidence of heart attack, heart failure and

stroke

**DOI:** https://doi.org/10.1136/openhrt-2025-003398

GitHub: <a href="https://github.com/BHFDSC/CCU046\_03">https://github.com/BHFDSC/CCU046\_03</a>

## July 2025

Title: The challenges of replication: a worked example of methods reproducibility using

electronic health record data. PLOS One

**Project:** CCU040 02: The challenges of replication: a worked example of methods

reproducibility using routinely collected healthcare data

**DOI:** https://doi.org/10.1371/journal.pone.0326335

GitHub: <a href="https://github.com/BHFDSC/CCU040">https://github.com/BHFDSC/CCU040</a> 01

### July 2025

Title: Ethnic disparities in COVID-19 mortality and cardiovascular disease in England and

Wales between 2020-2022. Nature Communications

**Project:** CCU037 02: Ethnic disparities in health: a population-wide analysis of digital health

records for mortality and cardiovascular risk in individuals diagnosed with COVID-19

**DOI:** <u>https://doi.org/10.1038/s41467-025-59951-4</u>

GitHub: https://github.com/BHFDSC/CCU037 02

Title: Characteristics and early diagnosis of Motor Neuron Disease (MND) in 67 million

individuals in England: a comparative study on phenotyping models derived by AI,

Knowledge Graphs and the MND Association. medRxiv

Project: CCU019 03a: Characteristics and early diagnosis of Motor Neuron Disease (MND) in 67

million individuals in England: a comparative study on phenotyping models derived by

AI, Knowledge Graphs and the MND Association

**DOI:** https://doi.org/10.1101/2025.07.01.25330428

GitHub: <a href="https://github.com/BHFDSC/CCU019">https://github.com/BHFDSC/CCU019</a> 03a

### May 2025

Title: A population-based cross-sectional investigation of COVID-19 hospitalizations and

mortality among autistic people. Journal of Autism and Developmental Disorders

Project: CCU030\_02: COVID-19 hospitalisations and mortality in autistic people: a whole-

country population study

**DOI:** https://doi.org/10.1007/s10803-025-06844-6

GitHub: https://github.com/BHFDSC/CCU030 02

Title: Making a case for an autism-specific multimorbidity index: a comparative cohort

**study**. Journal of Autism and Developmental Disorders

**Project:** CCU030\_03: Making a case for an autism-specific bespoke multimorbidity index: a

COVID-19 pilot study

**DOI:** <u>https://doi.org/10.1007/s10803-025-06823-x</u>

GitHub: https://github.com/BHFDSC/CCU030 03

### April 2025

Title: Replicating a COVID-19 study in a national England database to assess the

generalisability of research with regional electronic health record data. BMJ Open

Project: CCU040 03: Replicating a regional COVID-19 study in the national UK COVID-IMPACT

database

**DOI:** <a href="https://doi.org/10.1136/bmjopen-2024-093080">https://doi.org/10.1136/bmjopen-2024-093080</a>

GitHub: https://github.com/BHFDSC/CCU040\_01

### **April 2025**

Title: Incidence and prevalence of asthma, chronic obstructive pulmonary disease and

interstitial lung disease between 2004 and 2023: harmonised analyses of longitudinal cohorts across England, Wales, South-East Scotland and Northern Ireland. *Thorax* 

Project: CCU052 01: How does the incidence and prevalence of asthma, ILD, and COPD change

from 2019 to the end of 2022?

DOI: <a href="https://doi.org/10.1136/thorax-2024-222699">https://doi.org/10.1136/thorax-2024-222699</a>
GitHub: <a href="https://github.com/BHFDSC/CCU052">https://github.com/BHFDSC/CCU052</a> 01

#### March 2025

Title: Impact of COVID-19 pandemic on rates of congenital heart disease procedures among

children: prospective cohort analyses of 26 270 procedures in 17 860 children using

CVD-COVID-UK consortium record linkage data. Open Heart

**Project:** CCU007\_01: What are the differences in types of congenital heart disease (CHD)

procedures in children during periods of lockdown and relaxation of lockdown,

compared to before the COVID-19 pandemic?

**DOI:** https://doi.org/10.1136/openhrt-2024-003054

GitHub: https://github.com/BHFDSC/CCU007 01

## February 2025

Title: Peripandemic outcomes of infants treated for sentinel congenital heart diseases in

**England and Wales**. Open Heart

**Project:** CCU007 03: What are the effects of delays to surgery for CHDs on child's health and

wellbeing over the one to two years following the start of the pandemic?

**DOI:** https://doi.org/10.1136/openhrt-2024-002964

GitHub: https://github.com/BHFDSC/CCU007 03

Title: Hospital readmission after heart valve surgery in the United Kingdom. JTCVS Open

Project: CCU007\_11: Trend, early and midterm clinical outcomes of cardiac surgical

interventions during covid era

**DOI:** <a href="https://doi.org/10.1016/j.xjon.2025.02.001">https://doi.org/10.1016/j.xjon.2025.02.001</a> **GitHub:** <a href="https://github.com/BHFDSC/CCU007">https://github.com/BHFDSC/CCU007</a> 11

#### January 2025

Title: Prevalence and demographics of 331 rare diseases and associated COVID-19-related

mortality among 58 million individuals: a nationwide retrospective observational

study. The Lancet Digital Health

**Project:** CCU019 01: Identification and personalised risk prediction for severe COVID-19 in

patients with rare disorders impacting cardiovascular health

**DOI:** <a href="https://doi.org/10.1016/S2589-7500(24)00253-X">https://doi.org/10.1016/S2589-7500(24)00253-X</a>

GitHub: https://github.com/BHFDSC/CCU019\_01

### December 2024

Title: Use of sodium valproate and other antiseizure drug treatments in England and Wales:

quantitative analysis of nationwide linked electronic health records. BMJ Medicine

**Project:** CCU014\_03: The impact of the COVID-19 pandemic on use of sodium valproate and

implementation of recommendations of the Cumberlege report

**DOI:** <a href="https://doi.org/10.1136/bmjmed-2023-000760">https://doi.org/10.1136/bmjmed-2023-000760</a>

GitHub: <a href="https://github.com/BHFDSC/CCU014\_03">https://github.com/BHFDSC/CCU014\_03</a>

## November 2024

Title: Healthcare utilisation of 282,080 individuals with long COVID over two years: a

multiple matched control, longitudinal cohort analysis. Journal of the Royal Society of

Medicine

**Project:** CCU049\_01: Healthcare utilisation in individuals with Long Covid

**DOI:** https://doi.org/10.1177/01410768241288345

GitHub: https://github.com/BHFDSC/CCU049 01

Title: Surgical and transcatheter aortic valve interventions for aortic stenosis in England:

sociodemographic variations in treatment trends and outcome over 20 years. Heart

**Project:** CCU056\_01: Socio-demographic make-up of patients undergoing surgical and

transcatheter aortic valve intervention in England and the impact of COVID on this

**DOI:** https://doi.org/10.1136/heartjnl-2024-324918

**GitHub:** <a href="https://github.com/BHFDSC/CCU056">https://github.com/BHFDSC/CCU056</a> 01

Title: Routine measurement of cardiometabolic disease risk factors in primary care in

England before, during, and after the COVID-19 pandemic: A population-based cohort

study. PLOS Medicine

**Project:** CCU008\_01: The impact of the COVID-19 pandemic on the measurement of routine

cardiometabolic disease risk factors in primary care

DOI: <a href="https://doi.org/10.1371/journal.pmed.1004485">https://doi.org/10.1371/journal.pmed.1004485</a>

GitHub: <a href="https://github.com/BHFDSC/CCU008">https://github.com/BHFDSC/CCU008</a> 01

Title: Risks of major arterial and venous thrombotic diseases after hospitalisation for

influenza, pneumonia, and COVID-19: A population-wide cohort in 2.6 million people

in Wales. Thrombosis Research

**Project:** CCU002\_04: Comparing the long-term risk of stroke/MI in patients after coronavirus

infection with other respiratory infections

**DOI:** https://doi.org/10.1016/j.thromres.2024.109213

GitHub: https://github.com/BHFDSC/CCU002 04

#### November 2024

Title: Combinations of multiple long term conditions and risk of hospital admission or death

during winter 2021-22 in England: population based cohort study. BMJ Medicine

**Project:** CCU059\_01: Combinations of multimorbidity and risk of hospitalisation or death in

England during the winter season: a population-based study of 48 million people

**DOI:** https://doi.org/10.1136/bmjmed-2024-001016

GitHub: https://github.com/BHFDSC/CCU059 01

#### October 2024

Title: Contemporary epidemiology of hospitalised heart failure with reduced versus

preserved ejection fraction in England: a retrospective, cohort study of whole-

population electronic health records. The Lancet Public Health

**Project:** CCU045 02: Contemporary trends and impact of multiple long-term conditions in

patients with heart failure with reduced and preserved ejection fraction following the

onset of the COVID-19 pandemic

**DOI:** https://doi.org/10.1016/S2468-2667(24)00215-9

GitHub: <a href="https://github.com/BHFDSC/CCU045">https://github.com/BHFDSC/CCU045</a> 02

Title: Association between ethnicity and emergency department visits in the last three

months of life in England: a retrospective population-based study using electronic

health records. BMJ Public Health

Project: CCU024\_02: Intersectional inequality in emergency department (ED) visits, in-hours and

out-of-hours, in the last 3 months of life for people who died in England in 2020

**DOI:** https://doi.org/10.1136/bmjph-2024-001121

**GitHub:** https://github.com/BHFDSC/CCU024 02

Title: Trends in pediatric hospital admissions caused or contributed by SARS-CoV-2 infection

in England. The Journal of Pediatrics

**Project:** CCU029\_02: How do the characteristics of first ascertained SARS-CoV-2 related hospital

admissions and the children admitted vary over time related to the pandemic waves of

SARS-CoV-2?

**DOI:** <a href="https://doi.org/10.1016/j.jpeds.2024.114370">https://doi.org/10.1016/j.jpeds.2024.114370</a>

**GitHub:** <a href="https://github.com/BHFDSC/CCU029\_02">https://github.com/BHFDSC/CCU029\_02</a>

Title: The impact of COVID-19 vaccination on patients with congenital heart disease in

**England: a case-control study**. *Heart* 

Project: CCU068 01: The impact of vaccination on the excess clinical risks of COVID-19 in

patients with congenital heart disease

**DOI:** https://doi.org/10.1136/heartjnl-2024-324470

GitHub: <a href="https://github.com/BHFDSC/CCU068">https://github.com/BHFDSC/CCU068</a> 01

#### October 2024

Title: The impact of the COVID-19 pandemic on cardiovascular risk factors and events in

**England: a population-based cohort study**. Preprints with The Lancet

Project: CCU003 05:

1) To describe the trends in incident diagnoses of hypertension and atrial fibrillation between November 2019 and March 2022 among the adult population of England,

overall and in subgroups of interest

2) To estimate the incidence rates of acute myocardial infarction and acute stroke between November 2019 and March 2022 among the adult population of England,

overall and in subgroups of interest

DOI: <a href="https://dx.doi.org/10.2139/ssrn.4972808">https://dx.doi.org/10.2139/ssrn.4972808</a>
GitHub: <a href="https://github.com/BHFDSC/CCU003\_05">https://github.com/BHFDSC/CCU003\_05</a>

## August 2024

Title: COVID-19 diagnosis, vaccination during pregnancy, and adverse pregnancy outcomes

of 865,654 women in England and Wales: a population-based cohort study. The Lancet

Regional Health - Europe

Project: CCU018\_01: Estimating the short- and longer-term risk of cardiovascular disease and

intermediate traits in women infected with COVID during pregnancy

**DOI:** https://doi.org/10.1016/j.lanepe.2024.101037

GitHub: <a href="https://github.com/BHFDSC/CCU018">https://github.com/BHFDSC/CCU018</a> 01

Title: COVID-19 vaccination and birth outcomes of 186,990 women vaccinated before

**pregnancy: an England-wide cohort study**. The Lancet Regional Health - Europe

**Project:** CCU036 01: Starting a course of COVID-19 vaccination before pregnancy and future

pregnancy outcomes

**DOI:** https://doi.org/10.1016/j.lanepe.2024.101025

**GitHub:** <a href="https://github.com/BHFDSC/CCU036">https://github.com/BHFDSC/CCU036</a> 01

### July 2024

Title: Cohort study of cardiovascular safety of different COVID-19 vaccination doses among

**46 million adults in England**. *Nature Communications* 

Project: CCU002\_06: First, second and booster dose COVID-19 vaccination and the risks of

arterial and venous vascular events

**DOI:** <u>https://doi.org/10.1038/s41467-024-49634-x</u>

**GitHub:** https://github.com/BHFDSC/CCU002\_06

#### June 2024

Title: Vaccinations, cardiovascular drugs, hospitalisation and mortality in COVID-19 and

**Long COVID**. International Journal of Infectious Diseases

**Project:** CCU060\_01: Improving characterisation, prediction and intervention for COVID- and

influenza-related morbidity and mortality

DOI: <a href="https://doi.org/10.1016/j.ijid.2024.107155">https://doi.org/10.1016/j.ijid.2024.107155</a>GitHub: <a href="https://github.com/BHFDSC/CCU060">https://github.com/BHFDSC/CCU060</a> 01

Title: Risk of cardiovascular events following COVID-19 in people with and without pre-

existing chronic respiratory disease. International Journal of Epidemiology

**Project:** CCU035\_01: SARS-CoV-2 infection and risk of major vascular events in people with

chronic respiratory diseases

DOI: <a href="https://doi.org/10.1093/ije/dyae068">https://doi.org/10.1093/ije/dyae068</a>
GitHub: <a href="https://github.com/BHFDSC/CCU035">https://github.com/BHFDSC/CCU035</a> 01

Title: A nationwide, population-based study on specialized care for acute heart failure

throughout the COVID-19 pandemic. European Journal of Heart Failure

Project: CCU045 01: The impact of COVID-19 on heart failure epidemiology, quality of care and

outcomes across primary and secondary care

**DOI:** https://doi.org/10.1002/ejhf.3306

**GitHub:** <a href="https://github.com/BHFDSC/CCU045">https://github.com/BHFDSC/CCU045</a> 01

#### February 2024

Title: Ethnicity data resource in population-wide health records: completeness, coverage

and granularity of diversity. Scientific Data

**Project:** CCU037\_01: Implementing a novel approach to improve correctness, completeness,

and granularity of ethnicity information using routinely collected data

**DOI:** <a href="https://doi.org/10.1038/s41597-024-02958-1">https://doi.org/10.1038/s41597-024-02958-1</a>

GitHub: https://github.com/BHFDSC/CCU037 01

## January 2024

Title: Undervaccination and severe COVID-19 outcomes: meta-analysis of national cohort

studies in England, Northern Ireland, Scotland, and Wales. The Lancet

Project: CCU051 01: Unvaccination and under-vaccination against SARS-CoV-2 in England

**DOI:** https://doi.org/10.1016/S0140-6736(23)02467-4

GitHub: https://github.com/BHFDSC/CCU051 01

### October 2023

Title: Understanding covid-19 outcomes among people with intellectual disabilities in

**England.** BMC Public Health

**Project:** CCU030\_01: Understanding covid-19 outcomes among people with intellectual

disabilities in England

**DOI:** <u>https://doi.org/10.1186/s12889-023-16993-x</u>

GitHub: <a href="https://github.com/BHFDSC/CCU030\_01">https://github.com/BHFDSC/CCU030\_01</a>

## August 2023

Title: Sars-Cov-2 infection in people with Type 1 diabetes and hospital admission: an

analysis of risk factors for England. Diabetes Therapy

**Project:** CCU040\_01: Investigating why some people with diabetes have a greater risk of

becoming seriously unwell or dying with COVID-19

**DOI:** <u>https://doi.org/10.1007/s13300-023-01456-8</u>

GitHub: <a href="https://github.com/BHFDSC/CCU040\_01">https://github.com/BHFDSC/CCU040\_01</a>

Title: Antipsychotic drug prescribing and mortality in people with dementia before and

during the COVID-19 pandemic: a retrospective cohort study in Wales. The Lancet

**Healthy Longevity** 

**Project:** CCU016\_01: Cardiovascular and cerebrovascular diseases related to antipsychotic

prescribing in patients with dementia during the COVID-19 pandemic

**DOI:** https://doi.org/10.1016/S2666-7568(23)00105-8

GitHub: <a href="https://github.com/BHFDSC/CCU016">https://github.com/BHFDSC/CCU016</a> 01

#### July 2023

Title: Hospital admissions linked to SARS-CoV-2 infection in children and adolescents:

cohort study of 3.2 million first ascertained infections in England. BMJ

**Project:** CCU029\_01: Hospital admissions linked to SARS-CoV-2 infection in children and

adolescents: cohort study of 3.2 million first ascertained infections in England

**DOI:** <a href="https://doi.org/10.1136/bmj-2022-073639">https://doi.org/10.1136/bmj-2022-073639</a>

GitHub: https://github.com/BHFDSC/CCU029 01

### January 2023

Title: The impact of the COVID-19 pandemic on cardiovascular disease prevention and

management. Nature Medicine

**Project:** CCU014 01: Assessing cardiovascular disease impact through medicines

**DOI:** <u>https://doi.org/10.1038/s41591-022-02158-7</u>

GitHub: https://github.com/BHFDSC/CCU014 01

### January 2023

Title: Harmonising electronic health records for reproducible research: challenges, solutions

and recommendations from a UK-wide COVID-19 research collaboration. BMC Medical

Informatics and Decision Making

**Project:** CCU005 03: Harmonising electronic health records for reproducible research:

challenges, solutions and recommendations from a UK-wide COVID-19 research

collaboration

**DOI:** https://doi.org/10.1186/s12911-022-02093-0

**GitHub:** <a href="https://github.com/BHFDSC/CCU005">https://github.com/BHFDSC/CCU005</a> 03

#### November 2022

Title: Better End of Life 2022. Mind the gaps: understanding and improving out-of-hours

care for people with advanced illness and their informal carers. Research report.

Marie Curie

**Project:** CCU024\_01: Mind the gaps: understanding and improving out-of-hours care for people

with advanced illness and their informal carers.

**URL:** https://www.mariecurie.org.uk/globalassets/media/documents/policy/beol-reports-

2022/better-end-of-life-report-2022.pdf

**GitHub:** <a href="https://github.com/BHFDSC/CCU024\_01">https://github.com/BHFDSC/CCU024\_01</a>

Title: Effects of the COVID-19 pandemic on secondary care for cardiovascular disease in the

UK: an electronic health record analysis across three countries. European Heart

Journal - Quality of Care and Clinical Outcomes

Project: CCU003 04: Quantifying the impact of the COVID-19 pandemic on the provision of

cardiovascular disease-related hospital healthcare in the UK

DOI: <a href="https://doi.org/10.1093/ehjqcco/qcac077">https://doi.org/10.1093/ehjqcco/qcac077</a>
GitHub: <a href="https://github.com/BHFDSC/CCU003">https://github.com/BHFDSC/CCU003</a> 04

Title: Using national electronic health records for pandemic preparedness: validation of a

parsimonious model for predicting excess deaths among those with COVID-19 – a data-driven retrospective cohort study. *Journal of the Royal Society of Medicine* 

**Project:** CCU003 03: Using national electronic health records for pandemic preparedness:

validation of a parsimonious model for predicting excess deaths among those with

COVID-19.

**DOI:** https://doi.org/10.1177/01410768221131897

**GitHub:** <a href="https://github.com/BHFDSC/CCU003\_03">https://github.com/BHFDSC/CCU003\_03</a>

#### September 2022

Title: Association of COVID-19 with major arterial and venous thrombotic diseases: a

population-wide cohort study of 48 million adults in England and Wales. Circulation

**Project:** CCU002 01: SARS-CoV-2 infection and risk of venous thromboembolism and arterial

thrombotic events

**DOI:** <u>https://doi.org/10.1161/CIRCULATIONAHA.122.060785</u>

**GitHub:** <a href="https://github.com/BHFDSC/CCU002\_01">https://github.com/BHFDSC/CCU002\_01</a>

#### June 2022

Title: A retrospective cohort study measured predicting and validating the impact of the

**COVID-19 pandemic in individuals with chronic kidney disease**. *Kidney International* 

**Project:** CCU003\_01: Predicting and validating risk of pre-pandemic and excess mortality during

the COVID-19 pandemic in individuals with chronic kidney disease

**DOI:** <a href="https://doi.org/10.1016/j.kint.2022.05.015">https://doi.org/10.1016/j.kint.2022.05.015</a> **GitHub:** <a href="https://github.com/BHFDSC/CCU003">https://github.com/BHFDSC/CCU003</a> 01

Title: COVID-19 trajectories among 57 million adults in England: a cohort study using

electronic health records. The Lancet Digital Health

**Project:** CCU013\_01: Characterising COVID-19 related events in a nationwide electronic health

record cohort of 57 million people in England

**DOI:** https://doi.org/10.1016/S2589-7500(22)00091-7

GitHub: https://github.com/BHFDSC/CCU013 01 ENG-COVID-19 event phenotyping

#### March 2022

Title: Evaluation of antithrombotic use and COVID-19 outcomes in a nationwide atrial

fibrillation cohort. Heart

**Project:** CCU020: Evaluation of antithrombotic use and COVID-19 outcomes

**DOI:** http://dx.doi.org/10.1136/heartjnl-2021-320325

GitHub: https://github.com/BHFDSC/CCU020

Title: Risk of myocarditis and pericarditis following BNT162b2 and ChAdOx1 COVID-19

vaccinations. medRxiv

Project: CCU002 03: COVID-19 vaccination and disease and the risks of myocarditis and

pericarditis

**DOI:** <a href="https://doi.org/10.1101/2022.03.06.21267462">https://doi.org/10.1101/2022.03.06.21267462</a>

GitHub: https://github.com/BHFDSC/CCU002 03

## February 2022

Title: Association of COVID-19 vaccines ChAdOx1 and BNT162b2 with major venous,

arterial, or thrombocytopenic events: A population-based cohort study of 46 million

adults in England. PLOS Medicine

Project: CCU002 02: COVID-19 vaccination and disease and the risks of major venous and

arterial vascular events

**DOI:** https://doi.org/10.1371/journal.pmed.1003926

**GitHub:** https://github.com/BHFDSC/CCU002 02

### December 2021

Title: A nationwide deep learning pipeline to predict stroke and COVID-19 death in atrial

fibrillation. medRxiv

**Project:** CCU004\_02: Prediction of stroke and COVID-19 death using deep learning and

sequential medical histories in a nationwide atrial fibrillation cohort
